

TravelWise Schools Activity 1 Curriculum Fulfilled

Language Arts: 6th

4060-01 Standard I: Oral Language

Students develop language for the purpose of effectively communicating through listening, speaking, viewing and presenting.

4060-0801 Objective 1: Prepare to write by gathering and organizing information and ideas (prewriting).

1. Generate ideas for writing by reading, discussing, researching and reflecting on personal experiences.
2. Select and narrow a topic from generated ideas.
3. Identify audience, purpose and form for writing.
4. Use a variety of graphic organizers to organize information from multiple sources.

Science: 6th and 5th

Students should begin to design and perform experiments and value inquiry as the fundamental scientific process. They should be encouraged to maintain an open and questioning mind as they plan and conduct experiments. They should be helped and encouraged to pose their own questions about objects, events, processes and results. They should have the opportunity to plan and conduct their own experiments, and come to their own conclusions as they read, observe, compare, describe, infer and draw conclusions. The results of their experiments need to be compared for reasonableness to multiple sources of information. It is important for students at this age to begin to formalize the processes of science and be able to identify the variables in a formal experiment.
